2009-2010 4-H PROJECT ENROLLMENT GUIDE

On the following pages are brief descriptions to help you understand selected project areas and where to look for project books. The best thing to do, however, is to take some time and familiarize yourself with this guide. Remember, you are welcome to visit the office and preview the project books and other publications. The order of the titles in this publication is the same as the order of books in the 4-H Office. You may find it helpful to bring a copy of this guide when browsing the project book shelves. Project books also contain great ideas for activities for club meetings.

Project books with a project number that start with **BU** are National Curriculum System books and many can be used to achieve for two or three years.

New for this year: Project books and other resources are now located in the 4-H Youth Mentor area close to the copier room.

Leaders and parents please double check the enrollment forms before they are turned in to the office to ensure accuracy.

Good luck in all your 4-H endeavors and don't forget to have fun.

| | |
|----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| AEROSPACE AR | Airplanes, rockets, hot air balloons, gliders, and space shuttles are all covered in these project books. Lessons in physics, math, and engineering. "Rockets Away" shows you how to build a rocket with a 2-liter soda bottle. |
| AGRICULTURE AG | Although listed under agriculture, this "Gifts of Gold" series covers history, culture, expressive arts, consumer science, and nutrition all through the study of corn. Intended for grades K-3. We have the Aiki book <u>Corn is Maize</u> , a CD-ROM, and a cassette tape that can be checked out. |
| ANIMAL SCIENCE AS | Exploring Farm Animals is a leader's guide for group activities for 6-8 year olds. |
| BICYCLE BI | A video on bicycle repair is available for check out. Nice series with a leader guide for group activities. A good way to promote riding safety. |
| CHILD DEVELOPMENT CD | Includes project books on babysitting as well as books for children who care for themselves at home. |
| COMMUNICATION ARTS CA | This is an interactive, dynamic project series that teaches youth to communicate better in all situations. Using verbal and non-verbal strategies, youth gain confidence through activities in speech writing, dealing with bullies, and practice making a good first impression. |
| COMPUTER TECHNOLOGY CP | The Computer Power Unlimited series is an updated set of books for every level of expertise. Teens Teaching Tech is great for teens to build on leadership skills while teaching younger 4-H'ers. |
| CLOTHING SELECTION CTS | Learn about design, fibers, and consumer choices. Good materials for a skill-a-thon competition. |
| CONSUMER EDUCATION CE | This series of books is for grades 4-12. 4-H'ers learn about wants, and needs, pressures from advertising, saving money, and making wise financial choices. |
| ENVIRONMENTAL EDUCATION EE | Explore your environment and learn about ecology. There are three levels for grades 4-12. Learn about environmental concepts through hands on activities. Build a compost column or eco-system. Limited quantities available. |
| EXPLORING 4-H EX | "Discovering 4-H" is a good sampler project book for Cloverbuds. "Discovering the Treasures of 4-H" is for grades 2-4 to learn the basics of 4-H through a sampler of all eight 4-H project areas. There are many great club activities in the leaders guide. |

| | |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| FOOD PREPARATION FP | While the emphasis is on preparing food, one series also covers food safety, nutrition, smart shopping, and careers. A second series focuses entirely on microwave cooking and understanding how a microwave works. |
| FORESTRY | The BU series covers forestry in general. The FO series deals with Florida trees and inspires 4-H'ers to take an interest in urban forests through community service. It is also used with the forestry competition. |
| GARDENING GR | Also look under PS for plant science. |
| HEALTH HL | A series that includes first aid, keeping healthy, and feeling fit. Everything from basic first aid to self-assessments on health, nutrition, and hygiene. In Keeping Fit, youth design their own personal fitness plan. |
| LEADERSHIP SKILLS LS | The Step Up to Leadership series has three books along with mentor books that could be used by a leader or older 4-H'er who is working with a younger group. |
| MEDIA/VISUAL ARTS | This group contains photography and arts and crafts project books. The "Portfolio Pathways" deals with painting, printing, and graphic design, and "Sketchbook Crossroads" covers drawing, fiber, and sculpture. |
| OUTDOOR EDUCATION OE | This category includes sport fishing, archery, hiking, camping, and backpacking. |
| PERFORMING ARTS PA | These books work well as a club project. 4-H'ers learn about writing scripts, costuming, acting, and props |
| PLANT SCIENCE PS | This series deals more with horticulture than vegetable gardening. The plant propagation book for older 4-H'ers is here. |
| POULTRY & EMBRYOLOGY PO1 | Embryology and raising the results. Everything you need to know about the care, breeds, and showing of poultry |
| PUBLIC SPEAKING PU | "Discovering the Treasure of Public Speaking" replaces the old book and record book with a pirate theme. |
| RABBITS | Activities and information on breeds, showing, and care. |
| RECREATION LA2 | A good "catch all" project book. Project work in arts, crafts, sports, reading, and music. And more. |

VETERINARY
SCIENCE
VS

Updated books look at the normal animal, anatomy, abnormal conditions, and veterinary careers.

WORKFORCE
WP

“Get in the Act” is geared towards middle school age youth to explore expectations of the workplace and connecting school to a future career. Includes an interactive CD.
